

SAFETY DATA SHEET
PRODUCT: Tobramycin Ophthalmic Solution USP

Section 1: PRODUCT AND COMPANY INFORMATION

54/1, Boodhihal village,
Nelamangala,
Bangalore, India-562123.
PRODUCT NAME: Tobramycin Ophthalmic Solution USP 0.3%

Section 2: HAZARD(S) IDENTIFICATION

EMERGENCY OVERVIEW

| | |
|------------|--|
| Appearance | A clear colorless solution, free from visible extraneous matter. Filled in white bottle plugged with natural nozzle and white cap. |
|------------|--|

| | |
|-------------------|-------------------|
| Physical Hazards: | Not classifiable. |
|-------------------|-------------------|

| | |
|-----------------|----------------------------------|
| Health Hazards: | Harmful if swallowed, Category 4 |
|-----------------|----------------------------------|

| | |
|------------|--|
| Symbol(s): |  |
|------------|--|

| | |
|--------------|----------|
| Signal Word: | Warning. |
|--------------|----------|

| | |
|----------------------|----------------------------|
| Hazard Statement(s): | H302 Harmful if swallowed. |
|----------------------|----------------------------|

Potential Health Effects: See Section 11 for more information

Precautionary Statement(s):

P264 Wash hands thoroughly after handling.

P270 Do not eat, drink or smoke when using this product.

P301 P312 IF SWALLOWED: Call a POISON CENTER/doctor if you feel unwell.

P330 Rinse mouth.

P501 Dispose of contents/container in accordance with local/regional/national/international regulations.

| | |
|-----------------------------------|-------------------|
| Hazards Not Otherwise Classified: | Not classifiable. |
|-----------------------------------|-------------------|

| | |
|----------------------------|-------|
| Supplementary Information: | None. |
|----------------------------|-------|

Potential Environmental Effects: See Section 12 for more information

Section 3: COMPOSITION AND INFORMATION ON INGREDIENTS

| Chemical Name | CAS Number | Chemical Formula | Molecular Weight | Percentage | Chemical Name |
|---------------|------------|---|------------------|------------|---------------|
| Tobramycin | 32986-56-4 | C ₁₈ H ₃₇ N ₅ O ₉ | 467.52 | 0.3% | Tobramycin |

The formula also contains Benzalkonium Chloride, 0.01% as a preservative; Boric Acid, Sodium Chloride, Sodium Sulfate, Tyloxapol, Sodium Hydroxide and/or Hydrochloric Acid to adjust pH between 7.0 – 8.0 and Purified Water.

Section 4: FIRST AID MEASURES

| | |
|-----------------------------------|---|
| Eye Contact | Remove from source of exposure. Flush with copious amounts of water for at least 15 minutes. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/ supportive care as necessary. Ensure that medical personnel are aware of the material(s) involved and are aware of precautions to protect themselves. |
| Skin Contact | Remove from source of exposure. Remove and isolate contaminated clothing and shoes. Flush with copious amounts of water for at least 20 minutes. Use soap. If irritation persists or signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary. Ensure that medical personnel are aware of the material(s) involved and are aware of precautions to protect themselves. |
| Inhalation | Remove from source of exposure. Move individual(s) to fresh air. Give artificial respiration if individual(s) are not breathing and call emergency medical service. If signs of toxicity occur, seek medical attention. Provide symptomatic/supportive care as necessary. Ensure that medical personnel are aware of the material(s) involved and are aware of precautions to protect themselves. |
| Ingestion | If a person vomits place them in the recovery position so that vomit will not re-enter the mouth and throat. Rinse mouth with water. If swallowed, seek medical advice immediately and show the container or label. Treat symptomatically and supportively. Ensure that medical personnel are aware of the material(s) involved and take precautions to protect themselves. |
| Injection | See prescribing information. |
| Protection of First-Aiders | Use personal protective equipment (see section 8). |
| Signs and Symptoms | Not determined. |
| Note to Physicians | See patient package insert in shipping carton for complete information |

Section 5: FIRE FIGHTING MEASURES

| | |
|---|--|
| Suitable Extinguishing Media | Dry chemical, carbon dioxide, water spray or fog, and foam on surrounding materials. |
| Unsuitable Extinguishing Media: | Not determined. |
| Specific Hazards Arising from the Chemical: | |
| Hazardous Combustion Products: | Not determined. |
| Special Protective Equipment Precautions for Firefighters: | Evacuate personnel to safe area. Wear self-contained breathing apparatus and full protective gear. Use water spray to keep fire-exposed containers cool. Do not spray water into the burning material. |
| Protection During Firefighting: | Firefighters must use full bunker gear including NIOSH-approved positive-pressure self-contained breathing apparatus to protect against potential hazardous combustion and decomposition products. |

Section 6: ACCIDENTAL RELEASE MEASURES

| | |
|---------------------------------------|---|
| Personal Precautions: | Use personal protective equipment recommended in Section 8 of this document and isolate the hazard area. |
| Personal Protective Equipment: | For personal protection see section 8. |
| Methods for Cleaning Up: | Use personal protective equipment. Contain the spill to prevent drainage into sewers, drains or streams. Use absorbent material to solidify the spill. Shovel or scoop up solidified waste. |
| Environmental Precautions: | Product administered to patients presents a negligible impact on the environment. |
| Reference to Other Sections: | Refer to Sections 8, 12 and 13 for further information. |

Section 7: HANDLING AND STORAGE

| | |
|---|---|
| Precautions for Safe Handling Hygiene Measures: | Avoid contact with product and use caution to prevent puncturing containers. Handle in accordance with product label and/or product insert information. Handle in accordance with good industrial hygiene and safety practices. |
| Conditions for Safe Storage, Including Any Incompatibilities Technical Measures: | Store product upright in original containers with the cap tightly closed at a controlled room temperature 2°C – 25°C (36°F – 77°F). Store according to label and/or product insert information. |
| Storage Conditions | 2°C – 25°C (36°F – 77°F). |
| Specific End Use | For Topical Ophthalmic use only |

Section 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational Exposure Guidelines:

| Common or Chemical Name | Employee Exposure Limits |
|-------------------------|--------------------------|
| Tobramycin | Not established |

| | |
|--------------------------------|--|
| Engineering Controls: | In the manufacturing plant, provide adequate ventilation for the raw material handling and compounding process which will maintain the dust and vapor levels below the TLV, STEL, and PEL values for the ingredients. Ventilation fans should be explosion proof. Use adequate personal protective equipment e.g. NIOSH-approved respirators, goggles or safety glasses, gloves and protective clothing. Ensure training in the handling of chemical material and use current Safety Data Sheets. |
| Respiratory Protection: | Where respirators are deemed necessary to reduce or control occupational exposures, use NIOSH-approved respiratory protection and have an effective respirator program in place (applicable U.S. regulation OSHA 29 CFR 1910.134). WARNING: Do not use air purifying respirators in oxygen depleted environments. |
| Eyes Protection: | Safety glasses with side shields are recommended. Face shields or goggles may be required if splash potential exists or if corrosive materials are present. Approved eye protection (e.g., bearing the ANSI Z87 or CSA stamp) is preferred. Maintain eyewash facilities in the work area. |
| Hand Protection: | Not required for the normal use of this product. Chemically compatible gloves. For handling solutions, ensure that the glove material is protective against the solvent being used. Use handling practices that minimize direct hand contact. Employees who are sensitive to natural rubber (latex) should use nitrile or other synthetic non-latex gloves. Use of powdered latex gloves should be avoided due to the risk of latex allergy. |
| Skin Protection: | Wear protective laboratory coat, apron, or disposable garment when working with large quantities. |
| Contaminated Equipment: | Wash contaminated clothing separately. Wash equipment with soap and water. Release rinse water into an approved wastewater system or according to Federal, State and Local regulations. |

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Physical State/Color: A clear colorless solution
Odor: Odorless.
Odor Threshold: No data available.
pH: Approximately 7.0.
Melting Point: No data available.
Freezing Point: No data available.
Boiling Point: No data available.
Flash Point: No data available.
Evaporation Rate: No data available.
Flammability (solid, gas): No data available.
Flammability Limit - Lower: No data available.
Flammability Limit - Upper: No data available.
Vapor Pressure: No data available.
Vapor Density: No data available.
Relative Density: No data available.
Solubility(ies): Miscible in water.
Partition Coefficient (n-octanol/water): No data available.
Auto-Ignition Temperature: No data available.
Decomposition Temperature: No data available.
Viscosity: No data available.
Specific Gravity: 1.0.
% Volatile by Volume: <1.

Section 10: STABILITY AND REACTIVITY

| | |
|---|---|
| Reactivity: | No data available. |
| Chemical Stability: | Stable under recommended storage conditions. |
| Possibility of Hazardous Reactions: | No data available. |
| Conditions to Avoid (e.g., static discharge, shock, or vibration): | Extreme heat or cold. Avoid freezing. |
| Incompatible Materials: | This product has the incompatibilities of water e.g. strong acids, bases, alkali metals, alkali hydrides and silver preparations. |
| Hazardous Decomposition Products: | Toxic fumes when heated to decomposition. |
| Hazardous Polymerization: | Should not occur. |

Section 11: TOXICOLOGY INFORMATION
Information on the Likely Routes of Exposure:

| | |
|---|--|
| Inhalation | May cause irritation to the respiratory tract and hypersensitivity in some individuals. |
| Ingestion | May cause irritation and hypersensitivity in some individuals. Ingestion of large quantities can cause nausea and vomiting. |
| Skin Contact | May cause irritation. Repeated or prolonged contact can induce hypersensitivity (anaphylactic) in some individuals. |
| Eye Contact | Not for injection into the eye. This is an ophthalmic preparation. May cause irritation and hypersensitivity in some individuals. Adverse reactions include localized ocular toxicity, lid itch and swelling and redness of the mucous membrane of the eye (conjunctival erythema). These reactions occur in less than 3% of patients. Signs of overdose of Tobramycin Ophthalmic Solution include inflammation of the cornea (punctate keratitis), erythema, increased tearing (lacrimation), swelling (edema) and lid itching. |
| Symptoms Related to the Physical, Chemical and Toxicological Characteristics | See Section 4. To the best of our knowledge, the chemical, physical and toxicological properties have not been thoroughly investigated. |
| Delayed and Immediate Effects of Exposure | No data available. |

Acute Toxicity:

| Compound | Species | Route | Type | Dose |
|------------|---------|-------------|------|-------------|
| Tobramycin | Rat | Intravenous | LD50 | 104 mg/kg |
| Boric Acid | Rat | Oral | LD50 | 2,660 mg/kg |
| Boric Acid | Rat | Inhalation | LC50 | 16 mg/L |

| | |
|--|---|
| National Toxicology Program (NTP): | Not considered to be a carcinogen. |
| International Agency for Research on Cancer (IARC): | Not considered to be a carcinogen. |
| Occupational Safety and Health Administration (OSHA): | Not considered to be a carcinogen. |
| Mutagenicity: | No data available. |
| Aspiration Hazard: | No data available. |
| Chronic Effects: | May cause irritation and hypersensitivity (anaphylactic in some individual. Prolonged use of topical antibiotics can give rise to overgrowth of nonsusceptible organisms, including fungi. Bacterial resistance to Tobramycin may also develop. |

Section 12: ECOLOGICAL INFORMATION

Ecotoxicity

Aquatic: No data available

Terrestrial: No data available

Persistence and Degradability: No data available.

Bio accumulative Potential: No data available.

Mobility in Soil: No data available.

Mobility in Environment: No data available.

Other Adverse Effects: No data available.

Section 13: DISPOSAL CONDITIONS

Waste Disposal: Waste must be disposed of in accordance with federal, state and local environmental control regulations.

Section 14: TRANSPORTATION INFORMATION

UN Number: Not applicable.

UN Proper Shipping Name: Not applicable.

Transport Hazard Class (es): Not applicable.

Packing Group: Not applicable.

Department of Transportation: Not regulated as a hazardous material.

International Air Transport

Association (IATA): Not regulated as a dangerous good.

International Maritime Dangerous

Good (IMDG): Not regulated as a dangerous good.

Section 15: REGULATORY INFORMATION

US Federal Regulations:

Toxic Substance Control Act

(TSCA): Not listed.

CERCLA Hazardous Substance and Reportable Quantity: Not listed.

SARA 313: Not listed.

SARA 302: Not listed.

State Regulations

California Proposition 65: Not listed.

Section 16: OTHER INFORMATION

Disclaimer: This document is generated to distribute health, safety and environmental data. It is not a specification sheet and none of the displayed data should be construed as a specification. Information on this safety data sheet (SDS) was obtained from sources which we believe are reliable, and we believe that the information is complete and accurate. However, the information is provided without any warranty, express or implied, regarding its correctness. Some of the information presented and conclusions drawn are from sources other than direct test data of the substance. The conditions or methods of handling, storage, use and disposal of the product are beyond our control and may also be beyond our knowledge. It is the user's responsibility to determine the suitability of any material for a specific purpose and to adopt such safety precautions as may be necessary. If the product is used as a component in another product, this SDS information may not be applicable. For these reasons, we do not assume any responsibility and expressly disclaim liability for any loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of this product. This information is based on our present state of knowledge. It should not therefore be constructed as guaranteeing specific properties of the products described or their suitability for a particular application.
